TREE CLIMBING FOR CHILDREN

The remarkable work of NDNS in the month of March includes bringing today's children a little closer to nature by arranging a tree climbing session for them. The organization celebrated children's birthdays on the trees. This tree climbing workshop is also meant to connect children with nature so as to inspire and motivate them to protect it.

Stay tuned to our newsletters and social media pages for information about future activities. We also organise programs for private groups. Contact us for the same at +91 9711115666.

Farm Visit on 16th April

This month we are planning a program at a farm in Chhatarpur. Participants are invited to join us for an evening of fun activities. This includes a nature walk, tree climbing, picking your own organic fruits and vegetables, and setting up bird nests.

Timing is 5pm to 7pm.

Location is near Gwal Pahari checkpoint.

To book your spot and for more details, please whatsapp 9711115666.

Instagram Posts

NDNS conducted a series of nature walks called the 'Green Zones of Delhi' in the month of February. In the walks, the participants visited some of the enchanting green areas of Delhi and were made aware of the different types of flora and fauna. Some of the enthusiastic participants have sent their feedback about the walks and said the kindest words regarding how this activity benefitted them.

NDNS Needs Your Help

New Delhi Nature Society has helped to save numerous trees and animals across the capital over the years. Every day we get calls from different parts of the city, where people request us for assistance. Animals need to be rescued, trees need to be saved, and we have to attend meetings to revive water bodies and survey biodiversity parks, etc. We need to conduct site inspections regularly. A lot of our fieldwork is directly related to our litigation for environment conservation. For all this work we need to have a mode of conveyance, and sometimes we are left helpless and stranded since our organization does not own any vehicle at the moment.

We are reaching out to all our supporters for some help to get our first vehicle. So, if you can help us with an old vehicle which is in good working condition, or help us to raise funds to buy a new vehicle, then it would greatly help in our work. We require a large vehicle which will be very helpful to travel with animals, also it can be helpful to save a fallen tree. We require an SUV so that we can access all terrains in and around the city.

If we get a single donor, their name / donating company name will be printed on the sides of the vehicle. If multiple donors can contribute funds for a new vehicle, our organization will issue an 80G receipt for the donors. For more information, please contact us at newdelhinaturesociety@gmail.com.

Hindustan Times

All civic bodies ordered to operate tree ambulances

Safe-tree first

WHAT IS A TREE AMBULANCE?
Tree ambulances are specially equipped vehicles with hydraulic lifts and cranes to remove dead trees, diseased trees, and trees that are leaning or falling. They are equipped with hydraulic cranes, winches, and other equipment to remove trees safely. They are also equipped with first aid kits and other safety equipment.

IN THE CAPITAL
The Delhi government has ordered all civic bodies to operate tree ambulances. The order was issued on March 14, 2022. The order states that tree ambulances are to be used for the removal of dead trees, diseased trees, and trees that are leaning or falling. The order also states that tree ambulances are to be used for the removal of trees that are in the way of construction work.

FOR COMPLAINTS
Civic bodies are to be responsible for the operation of tree ambulances. They are to be equipped with the necessary equipment and personnel to operate the ambulances. They are also to be responsible for the maintenance of the ambulances.

IN VARIOUS VILLAGES
The Delhi government has also ordered all civic bodies to operate tree ambulances in various villages. The order was issued on March 14, 2022. The order states that tree ambulances are to be used for the removal of dead trees, diseased trees, and trees that are leaning or falling. The order also states that tree ambulances are to be used for the removal of trees that are in the way of construction work.

De-Choke Trees

The Hon'ble National Green Tribunal in its order dated 23rd April 2013 has directed all Public Authorities to ensure that all the sign boards, names, advertisements, any kind of boards or signage's, electric wires and high tension cables or otherwise are removed from the trees.

They shall also ensure that the concrete surrounding the trees within one meter of the trees are removed and all the trees are looked after well and due precaution is taken in future so that no concrete or construction or repairing work is done at least within one meter radius of the trunk of trees.
